DEDICATION

Peter Carini

Peter Carini, was a wonderful husband, friend, and science teacher. A man filled with love, dedication, humor, and the joy of life. Mr. Carini was a teacher who moved all of his students in ways few teachers can. He made life-long connections with his students in and out of the classroom.

Walking into Mr. Carini's E block biology and lab class every day was a thrill in itself. Students made a game out of witnessing the next crazy outfit Mr. Carini would wear, and how short his necktie would be. As you sat down at your yard-top biology table, you never knew what was coming next. It wasn't long until we started to discuss intriguing scientific happenings, or tried a crazy experiment only Mr. Carini was brave enough to attempt. Looking around his classroom, you couldn't help but feel like you were in a rain forest or jungle of some type because of all the different animals housed in cages and tanks. It was an experience of a lifetime taking Mr. Carini's Biology class.

Besides being an influential teacher at RHS, Mr. Carini was a loving husband and father. Everyday he had stories for us about what he and his wife had done, and there wasn't enough time in the day for all of the bragging he did about his two children. His family meant the world to him, and he inspired students to look forward to a future of love and parenting.

All of the students at RHS who had the opportunity to experience Mr. Carini, take his life lessons with you and remember him always. Thank you Mr. Carini and we love you.

If I leave here tomorrow would you still remember me? For I must be traveling on, now. Cause there's too many places I've got to see.

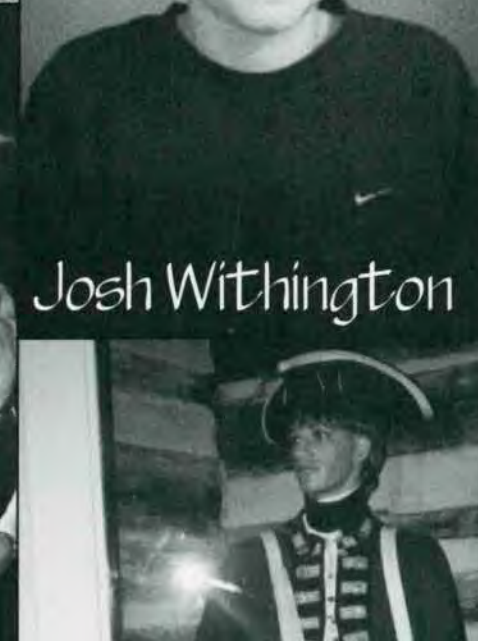

'Cause Lord knows I'm to blame. But, if I stayed here with you girl, things just couldn't be the same. 'Cause I'm as free as a bird now, and this bird you'll never change.

Maryanne Elizabeth Gillen

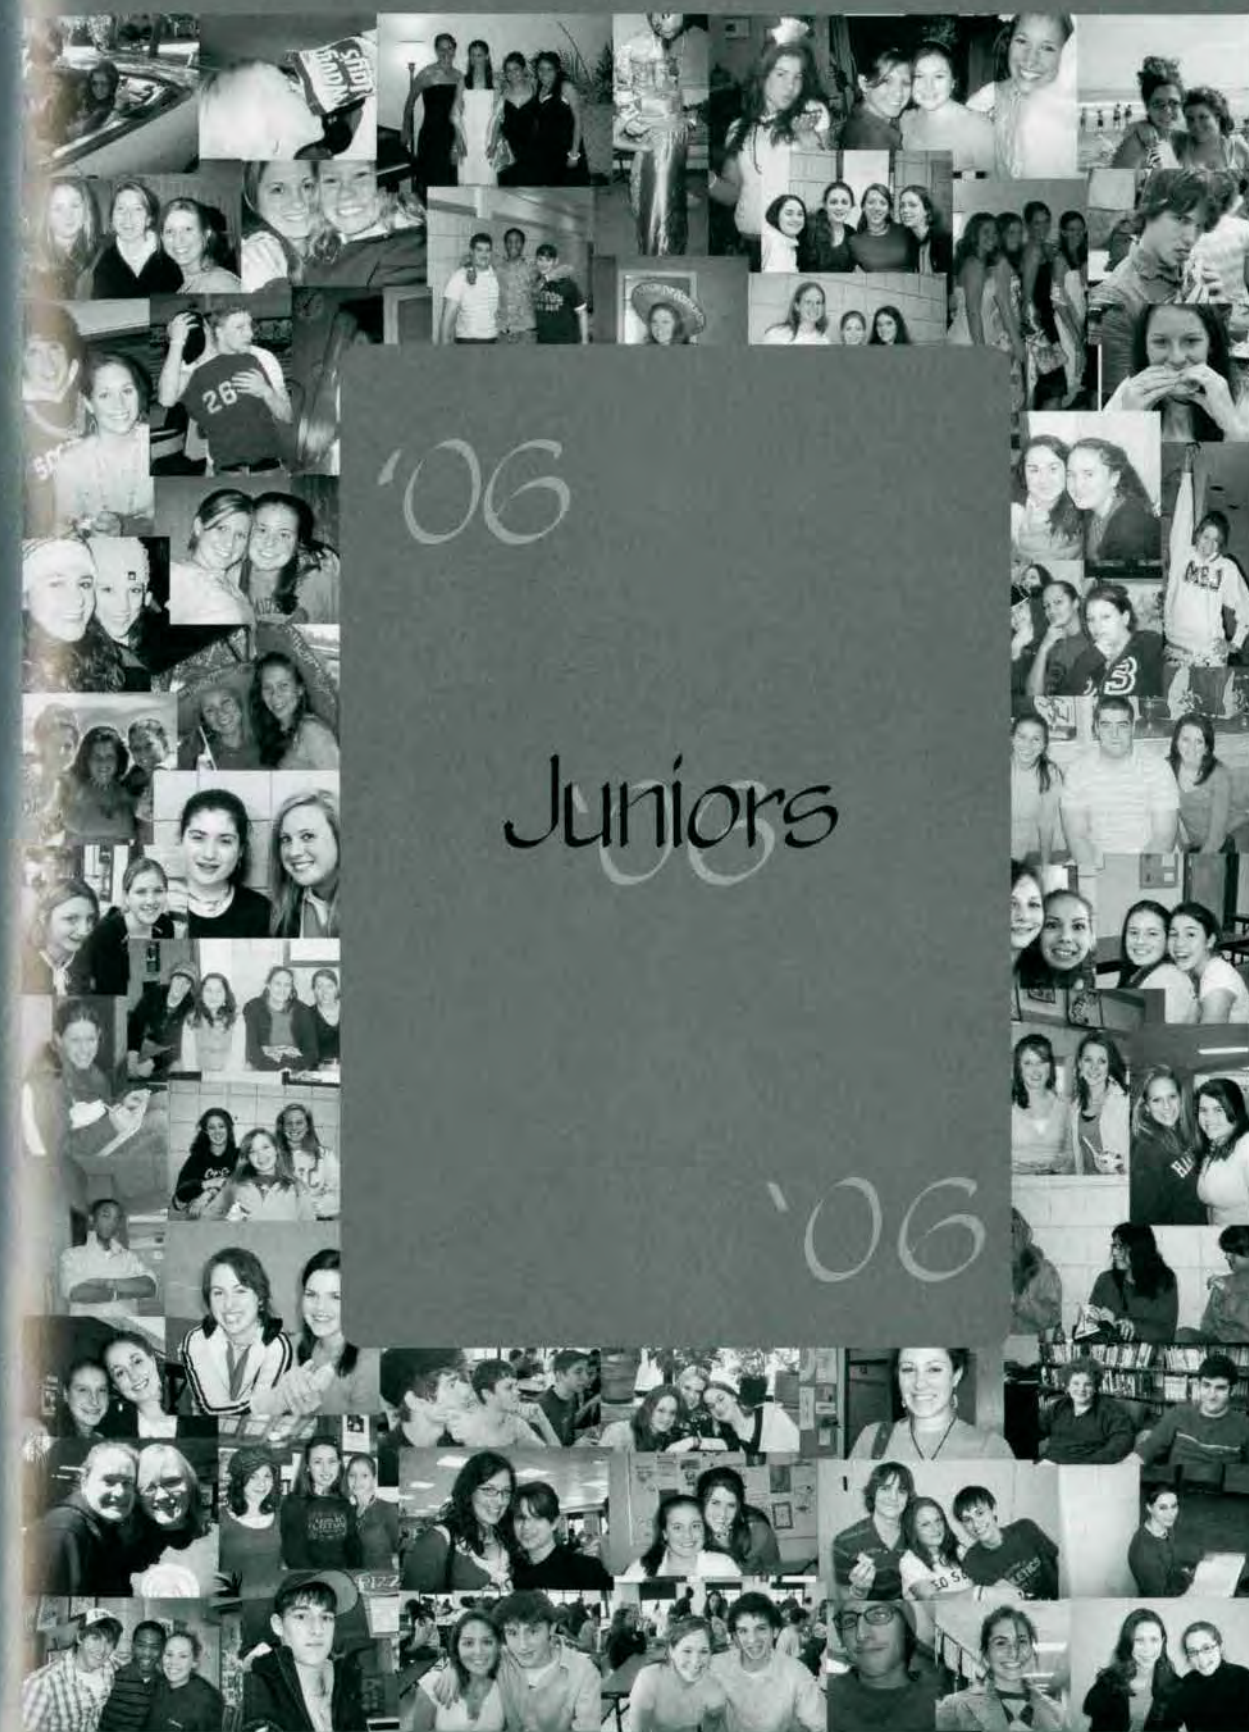

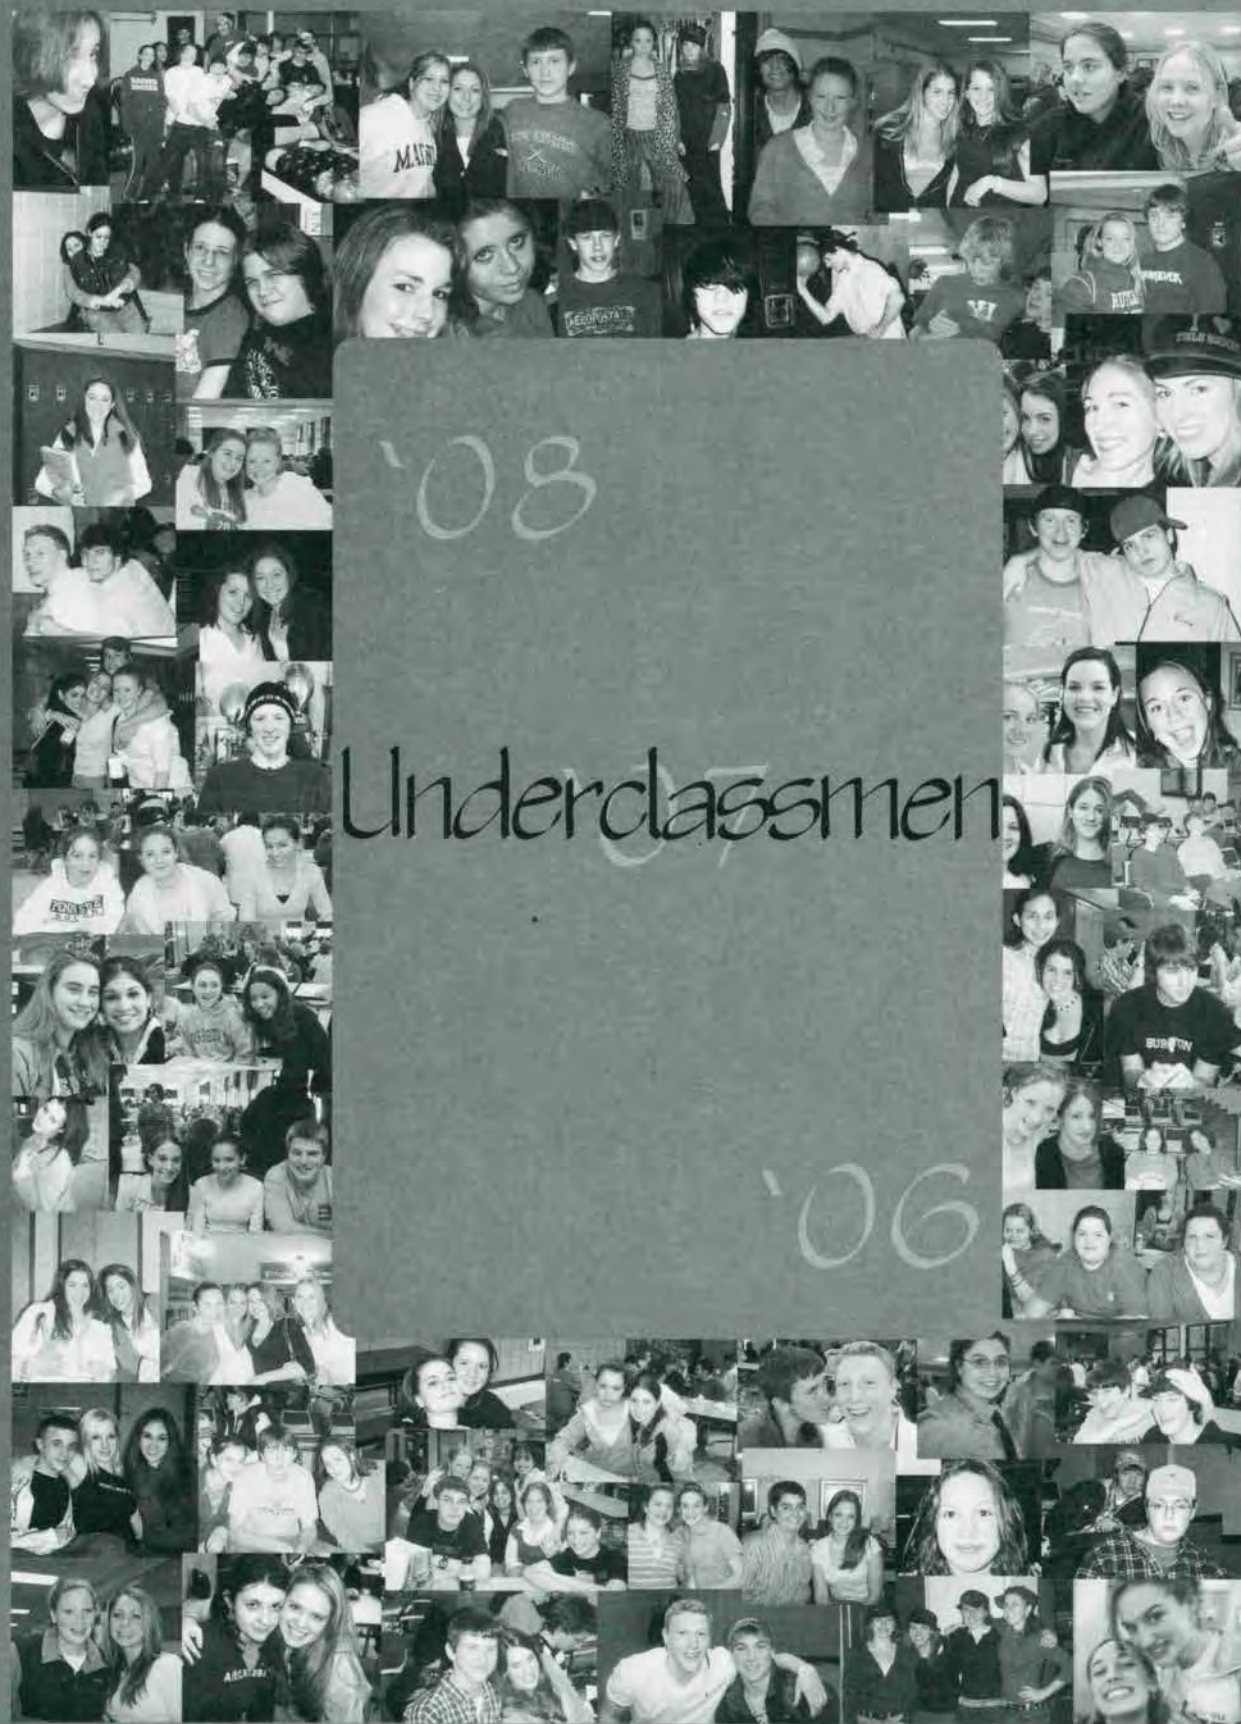

But, if I stayed here with you, girl, things just couldn't be the same. Cause I'm as free as a bird now. And this bird you can not change. And this bird you can not change.

Lord knows, I can't change. Bye bye baby its been a sweet love. Though this feeling I can't change. But please dont take it so badly.

FORENSICS CLUB

LtoR: Matthew Robare, Thomas Ferris, Mr. Hooker, Renee Cyr, Jessica Roland, Sean O'Hara

The Forensics Club was formed in 2002 after the retirement of Dr. D and the demise of Debate. We do NOT dissect cadavers, although our mentor is Mr. Hooker, a biology teacher. We are "Speech/Public Speaking/Literacy/Drama" Club. There are eight categories of competition: Extemporaneous, Impromptu, Drama, Prose, Poetry, Radio, Original Oratory and Duo Drama. These range from dramatic readings to eloquent, passionate tirades about nonsense with a 1 minute notice. All wordsmiths are welcome.

This year included 9 tournaments around the state, including hosting our own here at RHS with 11 teams represented by 60+ students. The year saw the emergence of Thomas Ferris and Matt Robare as they joined the senior Sean O'Hara as trophy winners. And for the third year in a row, RHS is the home of the State Champion in Impromptu, Sean O'Hara!

The Science Club tries to provide an outlet for students interested in science outside the typical classroom setting. While we organize the Annual Science Fair at RHS, we have volunteered our efforts for Green Up Day, cleared blocked waterways for homeowners, explored orienteering activities, grown monarchs for the Monarch Watch Program, played Snowshoe Golf, made coffee can ice cream, camped and gone on whale watches and deep sea fishing expeditions. The Science Club is open to all.

....

On April 6, 1855 a public meeting was held of the districts and the union was consummated, and shortly after, the high school was established. Rutland High School began as a four room academy on Main Street in Rutland. In the high school's first year, there was an enrollment of 199 students. The first graduating class was in 1857 and consisted of three females. In 1929, the High School was moved to Library Ave. and enrollment increased greatly. Once again in 1992 the High School was moved in order to accommodate the increasing number of students. Currently, there are approximately 260 graduating students in a given class.

The girls' field hockey squad will hold its initial practice sometime this week, according to a statement made by Coach Willis. A field has not as yet been secured but all arrangements are expected to be completed soon.

A Freshman, Sophomore, Junior and Senior team will be organized and inter-class games will be scheduled. Practices will be held separately for each class twice a week.
